NEW YORK, NEW YORK

After tabulating the votes NEW YORK was the winning trip and I am in the final phases of getting all vital details ready to send home. The ideal date has changed though due to weather and timing ... We were originally going to go the last weekend in March but it looks now as if we will be going the first weekend of May. We will leave on Friday after school May 4th and miss only Monday and Tuesday the 7th and 8th. The 8th is a half day with teacher in-service so the students will only be missing 1 ½ total school days. Plus this time of year will be beautiful in Central Park and should yield some warm and great sight-seeing weather. The proposed trip itinerary is included on page three of this newsletter.
